15	DHS PLATE 3.5MM FOR 8 -12 YEARS CHILDREN - 8 HOLES X 120 MM 125°	TT
16	DHS PLATE 3.5MM FOR 8 -12 YEARS CHILDREN - 8 HOLES X 120 MM 135°	TT

## Specification

- Product is available in Titanium material.

## Indication for use

- The DHS Plate 3.5 mm for Paediatric is indicated for fixation of proximal femoral fractures, osteotomies, and deformity correction procedures in paediatric patients. It provides stable internal fixation while accommodating the anatomy of growing bones. The plate helps maintain proper alignment and promotes bone healing during recovery. It is suitable for paediatric trauma, reconstructive, and corrective orthopaedic surgeries.
