	BOX FOR THR BI-MODULAR /ACETABULAR PREPARATION	1

THR BI-MODULAR /ACETABULAR PREPARATION INSTRUMENT SET

Specification

- Product is available in SS.

Indication for use

• The THR Bi-Modular Acetabular Preparation Instrument Set is indicated for use in total hip replacement procedures to prepare the acetabulum for implant placement. It assists in accurate reaming, sizing, and shaping of the acetabular cavity. The set ensures proper alignment and fit of bi-modular acetabular components. It is commonly used in primary and revision hip arthroplasty surgeries.
